Tectonic Wins Corporate Citizenship Award

for a Canadian Enterprise at the **2019** Canadian Health Informatics Awards (CHIA)

Toronto, CANADA; May 28, 2019

Tectonic Advisory Services was the recipient of the Corporate Citizenship Award for a Canadian Enterprise at the 2019 Canadian Health Informatics Award (CHIA) Gala in Toronto on May 28th, 2019. The award was received by Robyn Fulkerson, Chief Operating Officer (COO) of Tectonic.

"This award goes to our clients, members and partners, who support Tectonic's unique ecosystem model" says Robyn Fulkerson, COO and co-founder of Tectonic. "We collaborate with inspiring organizations and individuals every day, and they make our advisors work hard and evolve our business model to strengthen the Tectonic brand."

The award recognizes a leading for-profit healthcare ICT Company that has demonstrated a very high level of commitment to the health technology industry in the past 12 months, that is committed to and passionate about health informatics, and has heavily invested in contributing to the health technology industry.

"The decision of where to invest our time and resources is a difficult one", says Glenn Lanteigne, CEO and co-founder of Tectonic. "We are committed to this industry, so finding a balance that supports our clients and members and then ingraining it into our business model is key. Recognition like this in Canada makes it all worthwhile, and we will continue to do this with our multi-national business lines.

About Canadian Health Informatics Awards (CHIA)

The Canadian Health Informatics Awards (CHIA) pays tribute to excellence, leadership and innovation in health informatics. Awards are presented at the annual Canadian Health Informatics Awards Gala at the e-Health Conference and Tradeshow. The awards program is presented by Digital Health Canada and ITAC Health.

The Canadian Health Informatics Awards (CHIA) pay tribute to excellence, leadership and innovation in health informatics.
